Password guessing (abbr. PG-ing and/or variants thereof) is a form of security hacking involving the process of stealing passwords from data that has been stored in or transmitted by a computer system. A common approach is to try guesses repeatedly for the password and check them against an available cryptographic hash of the password, which is known as brute-forcing. Motives toward password ...

Dued1 denied responsibility for the script, and most people did not believe him. There are still some people who continue to blame him for the script, but it is unsure whether he is truly responsible, this is related to 1x1x1x1, a Roblox myth. Some people also thought it was a mistake that Roblox admins let him in Roblox headquarters for a stream because he could have inserted the anti lag script in Roblox Headquarters and could've have infected most games being featured in Roblox with a ...
